disaster films have a tendency to be very formulated and very cliched . to see a disaster film with actual originality , or at least a decent plot twist , would definitely be a welcome surprise .	-0.9	0.9
unfortunately , folks , it's not likely .	-0.6	0.6
dante's peak is cliched , and at times corny , but also pretty decent . to be honest , i wasn't very interested in seeing this film , and word of mouth , as well as several reviews , didn't make it sound promising .	-0.6	0.6
so i was pleasantly surprised that to find that this movie wasn't bad at all .	0.8	0.8
it's pretty run of the mill , but it's not something i would say is merely " ok " to watch .	-0.6	0.6
in case you don't know , dante's peak is about a volcano and the city which lives in it's shadow , dante's peak (who would've guessed , eh ?) .	-0.1	0.1
pierce brosnan plays the volcanologist sent to study the volcano and , perhaps more by hunch than actual scientific proof , is determined that the volcano will be arupting in the very near future .	0.3	0.3
due to the lack of more substantial evidence , nobody warns the small town , and when they finally do , it's in the middle of the town meeting that the volcano finally blows .	-0.5	0.5
brosnan , all around good guy , will , of course , save the day . . . or at least the mayor of dante's peak (linda hamilton) .	0.6	0.6
naturally the two will become infatuated with one another .	0.2	0.2
(if you think i just ruined a plot development , you haven't seen very many movies !)	-0.8	0.8
there's also the virtually neccessary kids and pet dog to tug at your heart strings . and of course , the kids or the dog (at least one or the other) will do something heroic . . . but hey , i don't want to ruin all the surprises ! if there was a part of you that was hesitating seeing dante's peak merely because it was rumored to be a waste of time , i urge you to watch it and decide for yourself .	-0.2	0.2

it's not brain food , but it succeeds at what it's meant to be . . . an enjoyable , suspenseful movie about the fury mother nature can unleash !
